## On the 26th of August last,

A Letter was put into the post office at Pittsburgh, addressed to Joseph Caldwell, Esq. Wheeling, Va. enclosing an account of sales, an account current, and a Promissory Note given by J. J. ## DISTRESSING ACCIDENT.

The Erie paper states that on Wednesday the 21st ult. a new schooner, owned by Mr. Harman was launched at Ashtabula, (Ohio) with about 120 persons, men, women, and children, on board. After she cleared the weighs she upset and the whole were thrown into the lake. The scene that followed was truly disstressing. The prompt assistance rendered by those who had remained on the bank was the means of saving all but seven young men, to wit: *Sylvanus W. Keeler, Ezra Hart, Wm. Pratt, Amos Batchelor, Rolin Newell, John Warner*, and *Harvey Cook.*

COUNSELLOR PHILLIPS,

*in a late speech delivered at Dublin, speaking of the* RELIGION OF CHRIST, *expresses himself in the following forcible and elegant language:*

"He sent it among us to heal, not to irritate—to associate, not to seclude—to collect together, like the babtismal Dove, every creed and every clime and colour in the universe, beneath the spotless wing of its protection. This union of Church and State, only converts good Christians into bad statesmen and political knaves into pretended Christians. It is at least, but a foul adulterous connexion, polluting the purity of Heaven with the abominations of earth, and hanging the profaneness of a *political piety* around the cross of an insulted Saviour. Not all the splendid deism of Rousseau—nor all the infidel ribaldry of Voltaire—nor all the stubborn impiety of Paine—nor all the blood-converting blasphemy of Mahomet—

Aimed at the Gospel grace so vile a blow,
Or prov'd so deadly and so damn'd a foe,
As he who wash'd the thorny garland's gore,
Daring to gild the wreath a Saviour wore!

Religion—holy religion—ought not, in the words of its founder, to be "led into temptation;" the hand that holds her chalice should be pure—the priests of her temple should be spotless as the vestments of their ministry; rank only degrades—wealth only impoverishes—ornaments only disfigure her. Her sacred porch becomes the more sublime from its simplicity, and should be seated on an eminence inaccessible to human passions; I would have her pure, unpensioned, unstipendiary; I would have her, in a word, like the bow of the firmament—her summit should be the sky—her boundaries the horizon; but the only colour that adorned her, should be caught from the tear of earth as it exhaled, and glowed, and glittered in the sun beams of the Heavens! Such is my idea of what religion ought to be."

*Geographical Sketch of the three Piratical States.*

Algiers, formerly a kingdom, is 480 miles long, and from 40 to 100 in breadth. Tunis is 220 miles long, and 170 broad.—Tripoli, including Batca, extends 1100 miles in length, and is from 100 miles to 300 miles broad. These states have a considerable military force, and their cavalry is very numerous and efficient. The Emperor of Morocco can bring 100,000 men into the field. A Geographical writer observes:—"It has been often thought surprising, that the Christian Powers should suffer their marine to be insulted by these barbarians, who take the ships of all nations with whom they are at peace, or rather, who do not pay them a subsidy either in money or commodities. We cannot account for this forbearance, otherwise than supposing first, that a breach with them might provoke the Porte, who pretends to be the lord paramount; secondly, that no Christian Power would be fond of seeing Algiers and the rest of that coast in possession of another; and, thirdly, that nothing can be got by a bombardment of any of their towns, as the inhabitants would instantly carry their effects into the desert and mountains, so that the benefit resulting from the conquest must be tedious and precarious."

*Extract of a letter from Paris, June* 14.

The wife of Joseph Bonaparte is now going to leave Paris and France. Before her departure she wished to dispose of the fine estate Marfontaine. She had not, however, been able to find a purchaser; but she wants to insert in the contract of sale *a clause, to preserve the right of repurchasing this beautiful estate, in case any change should take place!!!*

In letters from New South Wales, it is stated, that the Missionaries have lately met with extraordinary success in Eimeo, an island adjacent to Otaheite:—that the majority of the people have renounced idolatry; the priests burned their gods; the chiefs destroyed the Morais, demolished the altars, and cooked their dinners with the materials; and that more than 600 persons, chiefly adults, attend the schools of the Missionaries for instruction.

Mr. Sheridan's fatal disorder arose originally from a *tumour*, for which, it is said, an operation was recommended, which at the time would have been light, and would have most probably saved his life: but Mr. Sheridan turned it off with a joke, saying he had suffered two operations in his life time and he would not undergo a third. When asked what the two were, he answered—"That he had had his hair cut, and had sat for his picture."

HAMBURGH, *July* 10.

*Extract of a letter from Paris, of July* 2.

"Sir Sidney Smith proceeds in his philanthropic exertions for the abolition of Christian slavery in Africa. He has published another letter from a correspondent at Algiers, in which, among other things, it is stated, that the first negotiations, with the commandant of the Dutch squadron were broken off; because the Dutch refused all the arrears of tribute for the time during which Holland was united to France; that the Dey had provided large presents for the Porte, to keep the latter in good humor; that the whole military force of Algiers did not exceed 8000 men, &c

*Population of China.*—The Rev. R. Morrison, in a letter from Canton, dated January 1, says:—"I have had occasion lately to examine a large statistitical account of China, which contains the population of each province and district, as ascertained about the year 1790. The whole amounts to nearly 143 millions. This is not one half of what sir George Staunton was informed was the population. It is not likely that it has increased much lately, because famine and civil war have been frequent. I am persuaded that 150 millions is as many as it ought to be considered at. Crosire makes it about 200 millions. After all, 143 millions of people is a very large population. The central parts and the east coast are the most populous. Keung-nan province contains upwards of 30 millions; which is more than the French nation. The book from which I took the account is published by authority."

*Singular Methods of Crossing Rivers.*—Mr. Elphinstone, in his Account of Caubul, states, that he saw many people passing, and floating down the Indus, on skins of oxen inflated, riding astride, with a good part of their bodies in the water. The Hottentots have a method as singular. The mediums are called by Mr. Campbell "*wooden horses*," and they have been described by Mr. Trotter as logs of wood from six to eight feet in length, having pegs driven into the side at a few inches distance from one of the ends. On one of these logs a man stretches himself at full length, holding fast by the peg with one hand, whilst with the other, and occasionally with the feet, he drives it on by striking the water, as in the act of swimming. The end of the log, which goes foremost is held obliquely to the stream in an angle of about 45 degrees, by which it is pushed across without being carried far down with the current.

*London July* 22.

A letter from Philipsburg, dated July 7, says, "Last night our rest, which we so much needed after many days incessant labour to keep the Rhine within its bounds, was disturbed in a distressing manner.—The ringing of bells and the sound of cannon, as signals of distress, announced the dreaded breach of the dyke where the Saalbach falls into the Rhine. The dawn of day shewed a lake of many hundred acres, where the finest corn fields and meadows are destroyed by the flood. The distress of the inhabitants, who suffered so much last year by the troops, and supplying the magazines, is very great. All the neighbouring districts suffer more or less from similar causes.

*Anecdotes.* In one of the Calcutta papers of March last, received by the Argonaut, we find that the Insurance Societies of that city have presented captain Richard Coake with 3, 000 rupees, for having in a daring and gallant manner fixed an iron chain to the cut-water of the ship Sultauay while on fire in the harbor of Calcutta, by which means she was hauled up from the shore, and the mischief prevented from proceeding among the other vessels in the harbor. During the fire the harbor-master (Mr. Clark) of Calcutta was also particularly distinguished by his spirited exertions; and which led com. Hayes to address a letter to the editor of the Asiatic Mirror, containing the following anecdote of Clark's intrepidity:—"He was gunner of the Duke of Clarence, on a voyage of discovery under my command, and while we were traversing the Pacific Ocean, off the North Coast of New Guinea, the jemadar of the ship's detachment fell overboard to windward from the larboard anchor: the Duke being close hauled on the larboard tack, going at the rate of three knots, with a little air, and smooth water; on learning the accident, I jumped up on deck, and ordered the helm to be put down, which brought the ship round instantly, and the unfortunate person abreast of her gangway. At this time an enormous shark approached to seize him, which he perceived, and his cries were distressing and indescribable; in this extremity, I called upon Clark my gunner, to take the end of a rope, and leap overboard upon the terrific animal, then in the act of turning to swallow his prey. He magnanimously did so, and the shock it received impelled the monster to a precipitate retreat, the distance of a cable's length, before it recovered and turned to the ship, by which time we had got both the gunner and jemadar on board. The unfortunate native officer, however, expired ten minutes afterwards, apparently unhurt, notwithstanding every requisite medical aid was given him; it being the opinion of the surgeon, that his death was occasioned by the terrifying shock he received, on beholding the monster in the act of devouring him; which dreadful fate was only averted by the heroic devotion of Mr. Clark, now harbor-master at Calcutta."—*London pap.*

[*From the United States Gazette.*]

I am much pleased with the occasion which is afforded our citizens, of manifesting their gratitude to a hero who has been peculiarly instrumental in establishing, by examples of courage and discipline, the brilliant renown of our gallant navy.—The veteran TRUXTUN, eminently distinguished by his achievements in two successive wars, against the great maritime powers of England and France, is a candidate for the office of *Sheriff* of the city and county of Philadelphia; nor is it possible, without impeaching the attachment of our citizens to that cherished portion of the national force, to doubt their disposition to reward with their favor the evening of a life, whose morning and meridian were devoted to the most arduous service of our country.

## Steam Woolen Manufactory.

THE subscriber has on hand at his manufactory, which he offers for sale, on the most reasonable terms, the following *Domestic Cloths*, viz.

SUPERFINE BROAD CLOTHS,
CASSIMERES,
SATTINETS,

of different qualities, and a great variety of colors, suitable for the approaching season.

Having established his manufactory on an extensive scale, and at a very great expence, he will at all times be able to furnish any orders with which he may be favoured. Although an appeal to the *patriotism* of his fellow citizens, in support of the infant manufactures of their country, may not *alone* succeed; yet, when this appeal is made at a time when the rate of exchange between the western and the eastern states is greatly to our disadvantage, *interest* may induce merchants and others to turn their attention to the promotion and support of their own manufactories.

He assures the public that his prices are such as to be worthy their attention, particularly to those who purchase largely. He will give a credit of six, nine or twelve months, according to the quantity purchased, payable by negotiable notes in either of the banks in Pittsburgh.

He takes this method of returning thanks for the liberal encouragement he has received in the fulling and wool carding business, and requests a continuance.

FELLOW CITIZENS,

The undersigned have (in common with their Republican brethren composing the meeting from which they have derived their appointment,) watched with silence but anxious solicitude, the encroachments which tyranny in its most frightful form has been making on our Republican system. But in the hope that those whose more immediate duty it was, would not been found "slumbering in the hour of danger," we have heretofore forborne to complain. But when we see men to whom we have entrusted the guardianship of our rights, instead of defending them from innovation by our enemies, endeavouring to rob us of them, under the specious garb of friendship, we consider ourselves called upon, boldly to step forward and avow our disapprobation of their conduct. Such is the light in which we have viewed the late conduct of the two democratic corresponding committees. They have not only thought proper to assume the right of nominating candidates for our support at the ensuing election, but also to endeavor to deprive the people of the privilege of making a choice on the day of the election, by discontinuing the publication of the two tickets which had been previously formed, and publishing in their stead, a ticket formed by themselves, under the title of the "Union Ticket"; which they say is expressive of the sentiments and wishes of the democratic republicans of the district.

Let us pause for a moment and enquire, whether the ticket in question is justly entitled to either of the above appellations. Why is it called the union ticket? Was it formed by an union of the democratic republicans who had been instrumental in forming the two previous tickets? We may safely answer, no; for not an individual in this township knew of such a thing being in contemplation, until they were informed by a publication in the Mercury of the 14th inst. that the "union ticket was a concentration of the sentiments and wishes" of the Republicans of the district, and that it had been adopted by the committees merely for the purpose of saving the people the trouble of making a choice for themselves.—What then, is it an union of?—This we cannot answer, unless it be a union of a few men, who, discovering that they did not possess strength sufficient to effect their purposes independently of each other, have united for the purpose of defeating the great end which the framers of our constitution had in view—namely, that the will of the people should govern.

Let us next examine what reason there is for supposing it a "concentration of the sentiments and wishes of the people." We would ask the committees, how is it possible for six or eight men residing in the city, to know more of the wishes of the people than would be expressed by their joint votes on the day of the election; and why not hold out to view all the candidates which had been brought forward to enable them to make this choice—Until this is satisfactorily answered, we cannot believe this ticket to be, what it is stated to be in the address of the committees.

Those were the considerations which induced the meeting to bring forward the whole number of candidates which they knew to have offered for the respective offices—they had observed that through intrigue and corruption the election of officers was becoming to be merely a mechanical act; that through the influence of delegate meetings and the addresses of committees, the officers were actually chosen long before the election, and that a man who had the presumption to exercise the right which he derived from the hand of his creator, namely, that of choosing his rulers, was to be proscribed as a bad citizen; an enemy to all social order, and as a man who was wishing to subvert our present form of government by the introduction of anarchy.

We have now a sufficient number of candidates in view to enable the people to make a choice, and we recommend it to our fellow citizens to come forward on the day of the election determined to make this choice, regardless of the epithets that may be bestowed on them by the tools of any party.

We are aware that in consequence of our expressing our sentiments so freely on the subject, we will be accused of endeavoring to "throw the apple of discord" into the republican ranks—be it so. We are convinced that our republican brethren are possessed of too much penetration not to discover that if the republican interest should not be successful it will not be owing to our endeavors to preserve our system from corruption, but to that factious spirit which we presume governed the committees in their late secret sittings, and which induces men to sacrifice the dearest interests of their country to the gratification of their own private views.

With our fellow citizens of the district we now leave the result, trusting that they will come forward on the second Tuesday of October next determined to act worthy of the character of freemen.

JAMES H. NEEL,
JOHN K. SNODGRASS,

*The season in Europe* seems to have been as inauspicious, in the early part of it, as it was with us. Snow fell throughout the greater part of Swabia on the 8th of June; and at Rome they had icicles in April. Both were considered a phenomenon. The spots in the sun were as conspicuous there as here: but seem to have produced different effects: Here they were termed the father of drought; there the mother of rains. In Switzerland, the Netherlands, and adjacent country, the rains of June and July produced the most serious calamities. The water in the Rhine rose more than 18 feet, other rivers proportionably, and overflowed the low country, and in some places broke down the dikes. Many farmers were obliged to stall their cattle, and go with boats to the meadows, or cut down the green corn, to procure them forage.

---

A curious circumstance is said to have happened in the county of Cumberland, Vir. A whole family, with the exception of one person, had died of eating a part of a cabbage, which was boiled whole. On openng it, a scorpion was found in the centre.

---

It has rained incessantly for several days and nights past. The Juniata is now higher by nearly two feet, than it was at the time of the great flood in the fall of 1810. it is a most pitiable sight to see cows, sheep, fowls, bridges, fences, oats, corn, pumpkins, grass, &c. &c. floating down in one common mass. Persons owning lands contiguous to streams of water, and contaactors employed in building new turnpike bridges, have, we much fear, suffered severely. [*Bedford Gazette.*

# Public Sale of LAND, ON THE *RIVER OHIO.*

PURSUANT to a Decree of the Honorable the Supreme Court of the United States, will be sold by public auction, to the highest bidder, at Mason County Court House, (Point Pleasant) Virginia, on the 3d Tuesday in October next, a Tract of Land in the said county, known by the name of

## *" Graham's Station,"*

Lying on the Ohio River, from 18 to 24 miles above the mouth of the Great Kenhawa; containing 600 acres.

This tract is very handsomely situated on a bend of the river, for nearly 6 miles bounded by it, and backwards by two strait lines, being of a triangular form.

Persons of respectability acquainted with it, describe the bottom or low ground on the river, as "from three quarters of a mile to a mile in width, and not inferior in quality to the general average of bottom lands on the Ohio: and that the hill land is well calculated for small grain and good upland farms, although about a third of it does not admit of easy cultivation."

On this land 9 farms, with log houses there on have been laid out, and several hundred acres cleared and under fence. There is a public ferry established from it across the Ohio.—On a large creek is a good site for water works, where formerly was erected a Grist and Saw Mill, now decayed.

A number of respectable and industrious German families were formerly settled on this tract, some of them are probably still there, others in the neighbourhood. These persons are desirous of a speedy settlement thereof, not only with a view to the general improvement of the country, but from the laudable motives of obtaining additional society, and aid towards the support of a Schoolmaster and Preacher.

It is proposed to divide the tract into six lots of 1000 acres each, in order to accommodate purchasers. The terms of payment will be made known on the day of sale. The title has been adjudged by the Supreme Court to be unexceptionable, and deeds will be made to the purchasers, with general warranty free from all incumbrances.

It is wished that persons intending to purchase will, by themselves or agents, examine the land and form their own judgements as to its soil, improvements, situation and local advantages.

Mr. Gideon Hinkle, residing on the adjoining tract, will shew it, or point out a proper person for that purpose, with whom a plat will be lodged.

# DOCTOR CHISHOLM'S

## Anti-Bilious Pills,

*Of a quality superior to any thing of the kind ever offered as a GENERAL MEDICINE, in this Country.*

NOW prepared from a recipe of the celebrated *Dr. Chisholm*, who, from a long residence in the West-India Islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates.

This extraordinary Medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of *Anti-Bilious Pills*. The extraordinary powers of this medicine as a solvent and evacuent of Bile, is without example; never producing debility or injuring the health, in the smallest degree, of the most delicate child or weakly female:

The BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excruciating pains of the cholic, like a charm, by abusing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner, and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains* wherever seated.

A single Pill, taken every fourth hour with a cup of flaxseed tea, will cure *Pleurisy*, promote expectoration, and relieve coughs and colds.

In CONSUMPTIVE CASES and DISEASES OF THE LIVER, no medicine ever yet discovered, has been known to perform such cures. Two Pills taken every third morning, will be found sufficient, unless costiveness prevails; in which case the dose may be increased according to the strength or constituton.

The *Dysentery*, *Croup*, and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing & great oppression, with faintings, are fast sinking the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.

*The above valuable Medicine is Sold* ONLY *in Pittsburgh, by*

# Valuable Real Estate for Sale.

PURSUANT to the last Will and Testament of the late Col. RICHARD BROWN, deceased,

I NOW OFFER FOR SALE,

## The Farm on which he resided,

*On the Ohio River, in Holliday's Cove, in Brooke County, Virginia.*

This Estate consists of about 700 Acres of Land, 250 of which is a rich Island, the remainder principally second bottom and upland; that part of the upland which is not tillable, is covered with timber suitable for furnishing the Island and tillable part with fencing and building timber. There is between 150 and 200 acres cleared and under cultivation, a suitable proportion of which is good meadow land. The buildings consist in two log dwelling houses and a log barn with under story of stone. It is well supplied with very fine springs of good water.

The situation of this property on the Ohio River, five miles from the flourishing Town of Steubenville, and in the neighbourhood of several Merchant Mills, Iron Works, &c. renders it a desirable object to a person who would wish to farm extensively, as he would probably at all times find a good market at his door for the produce of his farm. A part of the purchase will be required in hand, and for the remainder a reasonable credit will be given.
